Lakeside Health Partners - Quality Targets 2026. This document sets the quality targets that every clinical department of Lakeside Health Partners reports against each quarter.

Readmission target. For the third quarter of 2026 the 30-day readmission target is 11.5 percent for every department. A department is above target when its monthly rate exceeds 11.5 percent. The patient satisfaction target is 4.3 out of 5.

Escalation. A department above the readmission target for two consecutive months must present an improvement plan to the Quality Committee within 30 days. The Quality Committee is chaired by the Chief Medical Officer.
